

# The DepED ICT for Education (ICT4E) Strategic Plan

8<sup>th</sup> Conference of Philippine Schools Overseas

“Transforming Schools: Lessons in Excellence”

Elcid C Pangilinan  
Special Assistant to the Secretary  
Department of Education

4 May 2009  
Royal Mandaya Hotel  
Davao City

## ICT Situationer

- Technological change and innovation.
- ICT is pervasive in our work, study and personal lives.
- Need to equip learners with the necessary skills and experiences that will enable them to become contributing members of the global community.

## ICT for Education (ICT4E) Situationer - DepED

- Transformation
- Exciting opportunities for learning and collaboration
- Learners need to develop habits of life-long learning to fully participate in the information age.

## ICT for Education (ICT4E) – the Challenge for DepED

- Education and ICT initiatives have all focused on
  - the need to equip our students with the skills and attitudes to meet the challenges of tomorrow's world.
  - ICT in education is part and parcel of this overall plan.
  - As a powerful educational tool, ICT can facilitate the transformation of school education in such a direction

## A Vision for ICT for Education (ICT4E)

- Exciting new era in education.
- Success will require close cooperation among the education stakeholders including the parents and the wider community.

## A Vision for ICT for Education (ICT4E)

- Directed towards our students
- This vision is to lead our students to be proficient, adaptable life-long learners where ICT plays a major role in creating a new and improved model of teaching and learning where education happens anytime, anywhere
- **21st Century Education For All Filipinos, Anytime, Anywhere.**

## A Vision for ICT for Education (ICT4E)

- Transformation will mean that we will integrate ICT to:
  - turn our schools into dynamic and innovative learning institutions
  - link up our students with the vast networked world of knowledge and information
  - develop in our students capabilities to critically and intelligently seek, absorb, analyze, manage and present information; and
  - develop in our students lifetime habits of self-learning

## Our Goals

In order to achieve our vision we aim to accomplish the following goals:

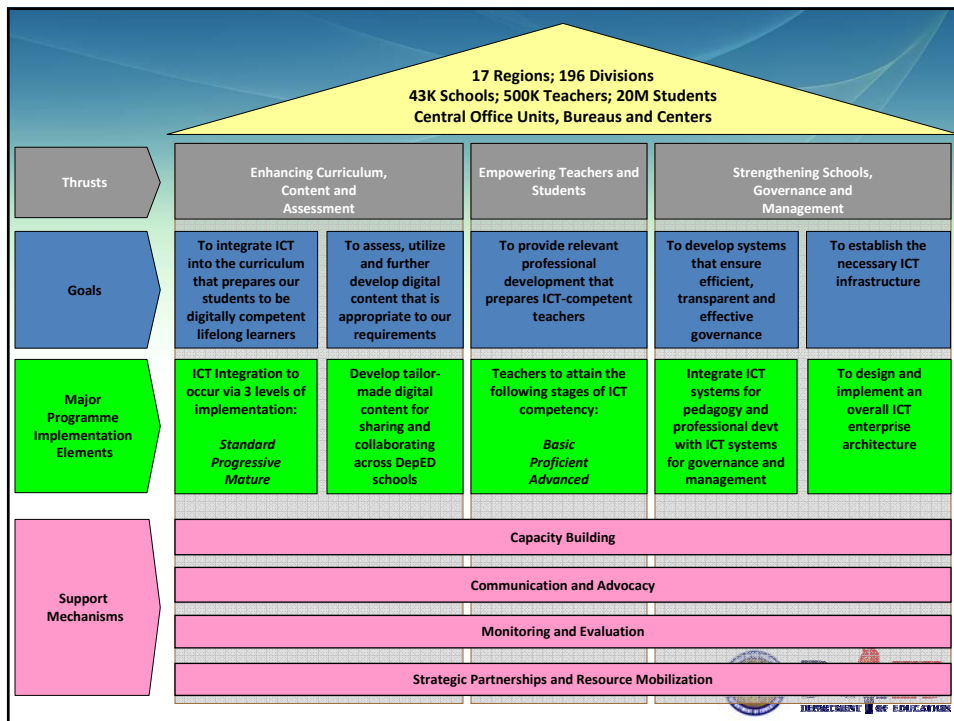

- To integrate ICT into the curriculum;
- To provide relevant professional development;
- To develop systems that ensure efficient, transparent and effective governance;
- To assess, utilize and further develop digital content; and,
- To establish the necessary ICT infrastructure.

# Key Thrusts

The key thrusts of this strategy are:

- Empowering Teachers and Students
- Enhancing Curriculum, Content and Assessment
- Strengthening Schools, Governance and Management
