# Engaging Students in Writing

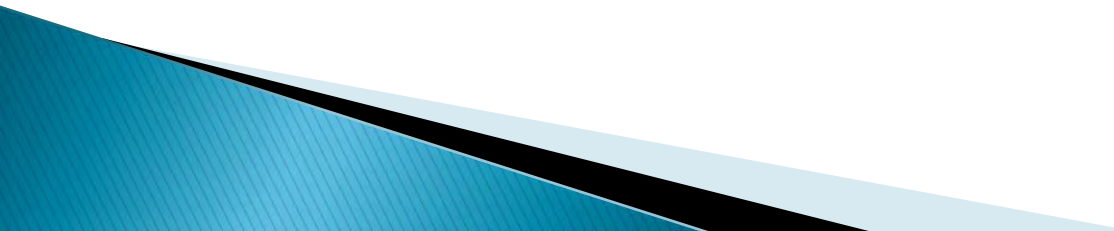

Writing is a complex task.  
For students it can be boring.  
Teachers find it challenging.

So,

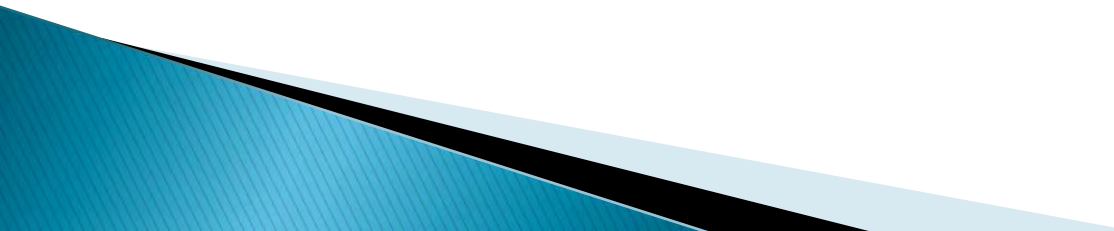

How can writing teachers make it relevant to students?

How do teachers engage students in writing?

# Engaging students in writing

- ▶ **Rule 1**
  - ▶ **Rule 2**
  - ▶ **Rule 3**
- 

# Integrating writing in all courses

- ▶ Introduce and train students in the writing conventions of a field.
  - ▶ Encourage students to process course material more deeply.
  - ▶ Allow teachers to assess students' comprehension of course topics.
  - ▶ Provide an opportunity for students to develop writing and research skills.
- 

# Rule No 1:

KNOW  
THE  
RULES

# Text 1

*Hi Ta!*

*Greetings from Bohol! It's just my second day and I hope the fun is just getting started! Yesterday we went to see the tarsiers and they were actually smaller than I expected!?! But still as cute. Too bad can't bring them home...or just wake them up. LOL!*

*Today the group will be heading to chocolate hills (yeah, I know, tourism 101!) so I'll have more pictures to show you.*

*How's your trip going? Can't wait to compare notes. Hope you're having as much fun as I am. Miss u!*

*Love,*

*Jasmine*

# Text 2

*Slice 2 medium-sized zucchinis and 4 - 6 tomatoes about  $\frac{1}{4}$  of an inch.*

*Lightly oil a shallow baking dish.*

*Place alternating slices of zucchini and tomato making sure that the bottom of the dish is covered.*

*Brush slices generously with olive oil mixed with minced garlic and dried basil.*

*Sprinkle salt and freshly ground pepper.*

*Top with freshly grated Parmesan cheese.*

*Bake in a 400-degree oven until vegetables are cooked through and cheese is lightly browned.*

# Text 3

*....We are a great people. We have honest students and honest cops....Our people compete and win every day in every imaginable job throughout the world. Individually, we've taken the world on and won; together, we must take on the challenge of creating a new, peaceful, humane and competitive nation and prevail....*

*After three years, eleven months, and six days, I shall relinquish the Presidency, with much if not all that I have outlined completed. I do not want it said then that, in the end, I defeated my enemies. I would rather have it said that all of us, you and I, friends and foes today, achieved together a country progressive, prosperous and united.*

*Thank you. Mabuhay!*

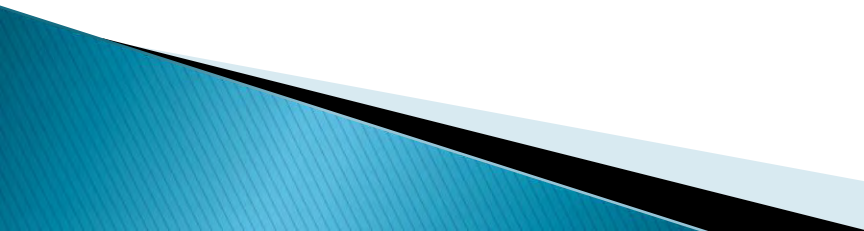

# Text 4

*This study was conducted to determine whether there is correlation between social class and the identification of children's sex through their speech. The participants were 32 six-year-old working class and middle class boys and girls who read and recorded a short passage in English. Six judges listened to the tape-recorded readings of the children and predicted the sex of each child. Results revealed that middle class children were more accurately identified by the judges. Also the fact that working class children had difficulty reading the English text underscored the sad reality that language can be a social stratifier in the Philippine context. This has implications for early childhood education in terms of developing an effective reading program for working class pre-school learners. Likewise, closer coordination between the home and the school is recommended to better orient parents on the crucial role they play in their children's education.*

# Text 5

A research team proceeded toward the apex of a natural geologic protuberance, the purpose of their expedition being the procurement of a sample of fluid hydride of oxygen in a large vessel, the exact size of which was unspecified. One member of the team precipitantly descended, sustaining severe fractural damage to the upper cranial portion of his anatomical structure. Subsequently, the second member of the team performed a self-rotational translation oriented in the direction taken by the first member.

# Type, style, tone of writing

If **you** don't know how to navigate through an e-commerce site, **you** will waste a lot of time.

The marketplace is growing so fast; pretty soon, **you'd think** the government would address the unresolved issues surrounding e-commerce now.

## Impersonal
